OneTooCalendar

Need for the project

Timeline

Estimated Timeline

Using the scrum process as inspiration, I plan to complete the project increments in 2-week sprints.

- Weeks of 9/19 and 9/26
  - Do research into technologies being used
  - Become familiar with the Google calendar API
  - Add all the key PBIs to the project backlog
- Weeks of 10/3 and 10/10:
  - Complete initial implementation of calendar viewer
- Weeks of 10/17 and 10/24:
  - Implement event creation
  - Add a view for viewing event details
- Weeks of 10/31 and 11/7:
  - Support event editing
  - Add backlogs and the ability to move items between backlogs and the calendar
- Weeks of 11/14 and 11/21
  - Add a view for seeing and editing event details
- Weeks of 11/28 and 12/5
  - Deploy project to the public
- Week of 12/12
  - Prepare presentation of project
